POINT OF IMPACT
Be the one to make a difference.

What is ARAS?

What is ARAS?

- ARAS stands for the Accident Reporting Automation System.
- Actually, ARAS is just a series of projects designed to provide risk-management tools for you.

POINT OF IMPACT
Be the one to make a difference.

What Tools will ARAS Provide?

What tools will ARAS provide?

- Easy-to-use, intuitive, online accident reporting forms.
- Complete accident report lifecycle management to include electronic staffing and suspense tracking.
- A push-pull information delivery system
  - We make it easy both for you to *provide* information to us
  - And also to *extract* the information you need for your risk management program

POINT OF IMPACT
Be the one to make a difference.

What tools will ARAS provide?

- Data sharing
  - We will look for trends that can predict future behavior located in databases from Medical to Military and Civilian Personnel, Police, fire, etc.
- We'll share DA-Level "lessons learned" throughout the Army through a Recommendation Tracking System.
  - The faster you know problems and solutions, the better chance you have to save lives

POINT OF IMPACT
Be the one to make a difference.

What tools will ARAS provide?

- Training
  - Interactive CDs with video
  - Hardcopy cookbooks
  - Safety Center classroom instruction
  - Full distance learning capabilities
  - Integrated into Army schoolhouse curriculum
  - “Thin” web-based

POINT OF IMPACT
Be the one to make a difference.

What is Available Now?

What is Available Now?

- Abbreviated Ground Accident Report — AGAR
  - All ground classes (reportable on an AGAR)
- Abbreviated Aviation Accident Report — AAAR
  - Class D – F

POINT OF IMPACT
Be the one to make a difference.

What’s Next?

What's Next?

- More Questions Based (TurboTax)
- Pre-Form Checklists
- Enhanced Feedback Mechanism
- Ability to Store the Report Locally
- Enhanced Help Menu System
- Support Additional Attachments

POINT OF IMPACT
Be the one to make a difference.

What's Next? (Continued)

- Enhanced Chain-of-Command (CoC)
  - Mandatory Installation Safety Office (ISO) notification and Routing
- Enhanced Drop Down Menus
- Decoded Reports

POINT OF IMPACT
Be the one to make a difference.
